Almaden Winery Building

Dear Neighbor:

Good news, on December 16, 2003, my colleagues on the City Council joined me in approving the Almaden Winery renovation project. This project has been a long time coming...but I am hopeful you and your neighbors will be pleased.

The project includes converting the existing first floor office space to 2 multi-purpose rooms, 2 activity rooms, a preschool room, upgrading the kitchen to a catering kitchen, and renovating the bathrooms which will add more stalls and make them ADA accessible. Construction is expected to begin in late January 2004 and should be completed by mid-December 2004.

If you have questions about the renovation project or would like to receive my neighborhood newsletter please, contact me at 277-5251 or at pat.dando@sanjoseca.gov

Best wishes to you and your family for a happy, healthy holiday season.

Sincerely,

Pat Dando
Vice Mayor
City of San Jose
